### QlikView/Microsoft Office Supported Platforms

	32-bit (x86)	64-bit (x64)
Office 2007	SP3 (minimum)	SP3 (minimum)
Office 2010 (32 bit)	SP1 (minimum)	SP1 (minimum)
Office 2010 (64 bit)	SP1 (minimum)	SP1 (minimum)

- 1 QlikView is an in-memory analysis technology; memory requirements for QlikView products are directly related to the quantity of data being analyzed.
- 2 Third-party security requires QlikView Server Enterprise Edition.
- 3 Android browser support may require anonymous access to be enabled on the QlikView Server, depending on the specific version of Android being deployed (requires session or usage cal's – not available on a Small Business Edition QlikView server).
- 4 Recommended for development and testing purposes only.
- 5 QlikView Publisher, QlikView web parts for Microsoft SharePoint®, and QlikView Workbench are additional licensed modules of QlikView Server. They are installed by applying a license to a QlikView Server. QlikView web parts for Microsoft SharePoint® and QlikView Workbench require QlikView Server Enterprise Edition.
